Slides: [CRT 08 Light](#)

Task 1.

Generate images using **ray tracing** with the provided files that contain information about 3D scenes. The scenes include information about lighting, which should be considered when "coloring" the pixels where triangles are visible. Experiment with different **albedo** values (not specified in the scenes):

- Scene 0: <https://bit.ly/37aQAOI>
- Scene 1: <https://bit.ly/3jtmgBw>
- Scene 2: <https://bit.ly/3O7FBpQ>
- Scene 3: <https://bit.ly/3LeHHT8>
